# Our Mission

## Scan Today , Healthy Tomorrow

The mission of Health Scan Laboratory is to provide **accurate, reliable, and timely** diagnostic testing services that enhance healthcare professionals. We are committed to utilizing **advanced technology**, adhering to the highest standards of **quality** and safety, and fostering a compassionate environment to ensure the well-being and **satisfaction** of our patients. Through continuous innovation, education, and collaboration, we aim to be a trusted leader in the **medical laboratory industry**.

# About Us

**Address:** East-Canal Road near Faisal Hospital, Faisalabad.

1. One side faces Canal Road.
2. Another side faces Faisal Hospital.
3. The third side faces the back street.

# Our Lab Quality Measures

## ☐ **Standard Operating Procedures (SOPs):**

Uniform SOPs for all departments to ensure consistency and accuracy.  
Regular review and updates of all procedures.

## ☐ **Staff Training and Competency:**

Comprehensive training programs for all laboratory personnel.  
Regular competency assessments and continuous education.

## ☐ **Equipment Calibration and Maintenance:**

Routine calibration of all equipment to ensure precise measurements.  
Scheduled maintenance to prevent equipment failure and downtime.

## ☐ **Quality Control Samples:**

Daily use of internal and external quality control samples.  
Participation in proficiency testing programs to validate accuracy.  
Accredited by College of American Pathologists (CAP) and NHS-NEQAS for external quality controls.

## ☐ **External Audits:**

Regular external audits to assess compliance with regulatory standards.  
Adherence to accreditation requirements for CAP and NHS-NEQAS.

## ☐ **Data Management:**

Secure and efficient data handling systems.  
Regular audits and validation of test results.

## ☐ **Environmental Monitoring:**

Regular checks of laboratory conditions (temperature, humidity, etc.).  
Adherence to safety and cleanliness standards.

## ☐ **Incident and Error Reporting:**

Systematic documentation and analysis of any incidents or errors.  
Implementation of corrective and preventive actions.

## ☐ **Customer Feedback:**

Collection and review of customer feedback to improve services.  
Prompt response to any issues or concerns.
